

"We Specialise in People"

HSE COORDINATOR

Our client specialises in steel fabrication and is able to offer a wide range of services including refurbishments, maintenance and shutdowns, structural steel, plate work, pipe work, steel erection, aluminium work and much more.

They are striving to become the number one provider of high quality fabrication and maintenance services in the Mackay region and are strongly committed to building its elite workforce.

Our client is currently seeking a **HSE Manager** to join their team.

YOUR DUTIES WILL INCLUDE:

- Assisting with developing and implementing appropriate safety, occupational health and environment systems and documentation
- Ensure that management and project personnel are actively involved in implementation of the Safety Management Plan
- Oversee and review the overall safety performance of workshop and site crews
- Undertaking regular safety audits and inspections
- Investigating and reporting on hazards, near misses, incidents and injuries
- Ensuring compliance with all regulatory requirements
- Contributing to their safety focused culture through the provision of health, safety and environment information and guidance, including medical and emergency response issues.
- Coaching employees, supervisors, managers and other personnel in relation to HSE processes
- Acting as initial point of contact in relation to HSE dispute resolution
- Audit contractor compliance with HSE management plans, process and systems.
- Holding monthly safety meetings
- Developing and maintaining associated project/facility procedures

YOU WILL NEED:

- Significant experience and qualifications in HSE
- A trade certificate or relevant tertiary qualifications
- Certificate IV in Occupational Health and Safety
- Good communication skills to suit a variety of different audiences
- Current First Aid certificate
- Proven commitment to safety
- Knowledge of safety management systems
