

"We Specialise in People"

MENTAL HEALTH NURSES

This opportunity is to improve outreach services in the mental health care of patients under the care of GPs and Psychiatrists, by assisting in the provision of co-ordinated clinical care in the community for people with severe mental disorders.

Key Responsibilities will include:

- To work in collaboration with GPs and Psychiatrists, and
 - to monitor their patients mental state,
 - to provide outreach services, and
 - medication management
- Assist in improving patients links to other health professionals and clinical service providers
- Ensure patients have access to the supports they need to remain well and prevent their readmission to acute care.

Qualifications or Skills you require:

- Mental health nurse credentialed with the Australian College of Mental Health Nurses or RNs with current registration who have obtained, or working towards obtaining, specialist qualifications in mental health (Grad.Dip. Mental Health Nursing or Master in Mental Health Nursing), and 3 years recent experience in mental health nursing.
- Ability to work collaboratively with private sector clinicians including GPs, Psychiatrists, Psychologists, as part of regularly reviewing the patients mental health state, contributing to the preparation of care plans, and ensuring the patients compliance with their medication.
- An enthusiasm for supporting patients to remain in the community by maintaining an appropriate therapeutic relationship, outreach carers.

If this position is suited to you, please submit your resume to Hayes HR asap.
