## IT/ COMPUTER ENGINEER/ NETWORK TECHNICIAN

Our client is a dynamic company with 10 years of experience within the IT industry. In addition to being a leading Internet Service Provider, they have a computer retail store and a network engineering team who service small to medium sized business clients.

They are seeking an enthusiastic well presented person to join their team as a **Network Engineer**.

**The applicant must have strong knowledge and experience with the following:**

- Broadband and Dialup internet technologies
- Windows XP/ Vista and Office products
- Wireless technologies and encryption
- Computer Hardware
- TCP/IP networking and routing
- Experience with small office/ home user peer to peer networking.

**In return they will be rewarded with:**

- An attractive remuneration package
- Friendly work environment
- The opportunity for career progression
- Additional Training Courses may be provided

**The ideal candidate should show a keen willingness to learn and better themselves.**

### About Hayes HR

**Hayes HR** is a Mackay based permanent recruitment company servicing the Mackay and Bowen Basin region. We have extensive experience in the mining, IT, engineering, service and administration sectors, and only deal with premier clients. **Hayes HR** has established a reputation as a provider of excellent service to our clients and candidates.

**Hayes HR** is privately owned and operated. The business is managed by the owner in a very "hands on" style and is supported by a small team of dedicated consultants who pride themselves on their service levels and no nonsense approach to recruitment.

**Hayes HR** is committed to being the best recruitment firm in the Mackay region. We will achieve this goal by continuing to observe our corporate values of **"Honesty, Integrity and Professionalism"**
