

UNDERGROUND FITTER/ MECHANICAL FITTER

- Permanent opportunities
- Large coal mining company
- 7 on 7 off roster available

Our client is a global resources company with several operations in the Bowen Basin area. They are the world's largest exporter of thermal coal and the fifth largest producer of hard coking coal, producing both premium quality hard coking coal and semi-soft coal.

They are currently recruiting for an **Underground Fitter** to join their operations in the Bowen Basin.

To be successful in these roles, you will have:

- Relevant trade qualifications
- Extensive previous experience in similar roles
- Current Coal Board Medical
- Commitment to high performance standards
- Be an effective team player
- Strong safety and risk management focus
